

A Model for Creation which is consistent with the Biblical revelation.

Taking Genesis 1 v1,2 as the overall statement of how things came about and the details, such as God gave, begin in v3 when God said 'Let there be light'. We generally think of light in the visible spectrum, but today, it is understood to be also the invisible spectrums, as defined by the term electromagnetism.

It has been estimated at the sub atomic level, ie many times smaller than an atom, called the Planck level, that the energy available in **every** cubic centimetre of the universe is extraordinarily huge; "*the amount of energy expended by our entire galaxy of stars shining for 10 billion years is less than the energy locked up in one cubic centimeter of space.*" [https://barrysetterfield.org/ZPE% 20Presentation/](https://barrysetterfield.org/ZPE%20Presentation/) and "*The zero-point energy density of the vacuum, due to all quantum fields, is extremely large, even when we cut off the largest allowable frequencies based on plausible physical arguments.*". https://en.wikipedia.org/wiki/Zero-point_energy.

Having created this energy and material it was a matter of the infinite and all knowing Creator, The Word, Jesus Christ to speak (code) into this and create in a very short time the world in the beginning. For those who don't know, it takes about three minutes to create a virtual world on a Playstation.

As the Bible says, God upholds the whole of Creation by the power of his Word. "The Son is the radiance of God's glory and the exact representation of his being, sustaining all things by his powerful word." Hebrews 1v3 NIV.

Don't settle for anything less in Creation terms. When Christ comes back, He will, with the voice of the Archangel, raise the Christian dead in the twinkling of an eye. 1Cor 15v52.

BREAKING THE POWER OF SECULARISM

How was the Universe Made?

A Foundation Belief of Secularism

The *Beliefs* of well known Scientists and their knowledge of the consequences of their teaching are vital to the **Creation Myth** of Secularism.

Below is a typical representation of the Big Bang generally understood and taught as the beginning point of Creation, when all material things began to exist in rudimentary form. Subsequent development is understood to be random chance events (following laws which somehow previously exist) leading to the complexities of, and life as we know it. This is the SECULAR basis of life and practise. It is a 'nature' or 'natural' explanation of life derived from observation and leads to a 'nature religion'.

DEATH is a critical feature of this natural explanation!

Christians often adopt some of these ideas ... we have been taught them in education, media and sometimes in church. We might tag God onto them in some way to produce a God controlled form of these ideas.

But the Bible teaches a completely different pattern of Creation which does not include 'DEATH' except as a disastrous invasion!

The natural way humans understand how life came about is completely unnatural to the God of the Bible. It is clearly stated and described that DEATH came into the world because of disobedience to God through unbelief in his words.

*.we have surrendered
to the world's ideas...*

We find it hard to understand statements in the scriptures which are completely unnatural to us 'Let there be light and there was light' Genesis 1v3 We work hard at applying scriptures about how long a day is in Genesis because we can't or don't want to believe in a six, twenty four hour day, Creation.

Consider this; the highest form of making things today is understood to be manipulating the DNA code. "Mar 26, 2025 At its core, CRISPR is a molecular tool that allows scientists to edit DNA with incredible precision. The Cas9 protein, guided by a small RNA sequence, functions as a pair of molecular scissors." <https://www.sciencenewstoday.org/crispr-and-gene-editing-rewriting-life-itself> .

We send code to a 3D printer and think it clever that we can produce complex things so quickly and easily. We write millions of lines of code and run it in a computer in minutes to produce virtual worlds in which we can do anything we wish. Virtually!

We are just on the brink of a gigantic expansion of these things in Artificial Intelligence, and we mock the Christian Scriptures because they talk about a Creator, who is called the Word, speaking things into being and performing miracles by doing that very thing.

How unbelieving the Church of Jesus Christ is! No wonder the lampstands are being taken from churches in the places where we have surrendered to the world's ideas.

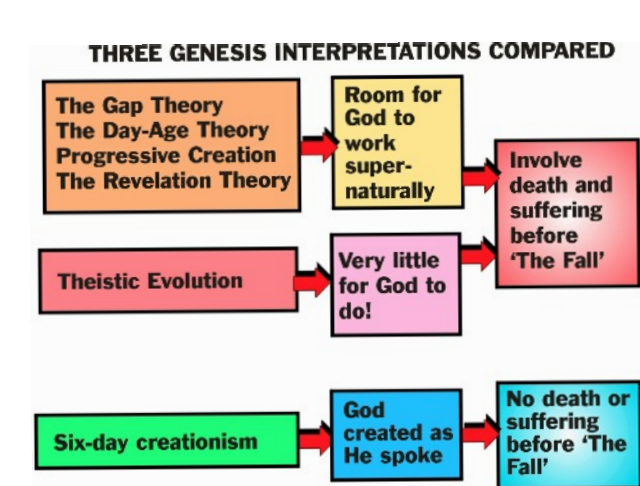

The Apostle Paul deals with this very question, and shows that the natural way of shaping our thinking about the Creator and

the Creation process, based on observations of animate and inanimate things rather than God's word is abhorrent to God.

Romans 1v23 is very clear that the ungodly, thinking that they are wise, have become foolish and darkened in their thoughts because they have exchanged the beauty of the Creator's method of speaking things into being instantly. Instead they have shaped idolatrous ideas in their mind and heart, formed on observations and deductions from things which DIE. Therefore God gives them up...

This is the very same problem that caused the people of Israel and Judah to be banished into Exile. See Ezekiel chapter 8 for the vision which God gave to Ezekiel when the elders and leaders of the nation were willing, whilst in exile, to sit down and actually listen to God's prophet.

*...children are taught ungodly
ideas without correction*

Three things are revealed in the vision which God gave to Ezekiel. He had to dig to see them. You won't see them either, without doing some hard digging in the scriptures and in secular literature on Creation matters.

They concern: Biology, Geology and Cosmology.

These are the very topics that are not allowed to be taught in Schools from a Biblical historical viewpoint. We change the God we worship when we accept another version of the creation method. Inevitably the Church and Christian influence is disappearing in our country. Our children are taught ungodly ideas without correction. God thus is giving us up... to all kinds of abhorrent behaviour!
